Section 2: BRIEF HISTORY

The idea of putting up an institution propped during one casual conversation among close friends talking about daring challenges. At first, the concept was considered a “foolish joke”, considering the financial status of each one. However, it was taken seriously after each member reflected that, with their educational background and working experiences, each could play a major role in the management of one educational institution. Indeed, with mere guts and modest capital, the group has complied with the requirements of the Security and Exchange Commission-Baguio Branch to register the **Cordillera Career Development College (CCDC)** as a corporation on April 6, 1993 and incidentally making it the “**first private educational institution of higher learning in the BIMAK provinces!**”

The operation of CCDC started during the summer term of 1993 in rented classrooms of the Pelizloy Centrum at Km. 5, La Trinidad, Benguet with 59 students enrolled in modular computer courses, review class for the NTC examination, a typing class and remedial classes for grade school pupils in reading, writing and arithmetic.

Enrollment during the start of School Year of 1993-94 was a little more than 100 students during the first semester and increased to more than 200 during the second semester in the various programs: Auto-Diesel Technology, modular classes in computer, Pre-school and Midwifery. The first graduation exercise was held at the Benguet Capitol Auditorium featuring those in the modular courses in computer and in the Pre-school.

Amazingly, with the opening of additional programs, the enrollment during the start of School Year 1994-1995 rose to more than 500 and further increased to 870 college students during the second semester. The new courses then were the Graduate School, Dental Hygiene, Computer Secretarial, Computer Technology, Computer Technician, Auto-Diesel Technology and Bachelor of Arts. Out of this number, a total of 157 students were among the first graduates in 1995 from the following courses: One-year Computer Secretarial; Two-year Computer Technician; Two-year graduate Midwifery and modular courses in computer.

CCDC was first envisioned merely to be a Pre-elementary, review and modular computer center. However, with efficient leadership coupled with sufficient educational experiences and warm encouragement from the community elders, the plan has been altered to include grade school, secondary, technical-vocational, tertiary and yes, even graduate education courses and a College of law!

From then on, new programs were offered with the enrollment continuously increasing. The need for expansion was seen, hence, a three-storey main building was constructed in a 2,500 lot area in

Buyagan, Poblacion, La Trinidad in 1995. At present, the college has three buildings and a gymnasium constructed in a 7,230 sq.m lot.

CCDC was not earlier meant to compete with older and bigger institutions but rather to complement and supplement their efforts in our common goal to educate our youth. However, because members of management have always kept in mind their responsibility to provide quality and relevant education, the performance of the institution's graduates are now at par or equal, if not even better than, the graduates of other institutions.

CCDC continues to bloom in its student population coming from all over the region and continues to adhere to the primary goal of providing quality education to the Filipino Youth, particularly to the Cordilleran.

Section 3: SCHOOL SEAL

The **TERRACES** remind us of the character of the Igorots behind the Natural Wonder. It emphasizes that industry, courage and hope are key elements to attain our goals.

The **SOLIBAO** reminds the Institution to be forever faithful to its calling of leading the way for the Filipino Youth, particularly the Cordilleran, to a promising future by providing quality and competitive education they so much deserve.

The beautiful and indigenous music from the **GONGS** describe the harmonious atmosphere within the academic community.

The various academic fields of the College are represented by the **LAMP, WHEELS, BOOKS** and **TORCH**, while the **ENTWINED BLANKETS** reiterate the unity of all the Cordilleran tribes; these prove further that there is unity in diversity.

MAN and **WOMAN** represent THE CHILD who is the center of the educational process.

The **JAR** illustrates that these precious treasures are under the care of the fortified earthen vessel.

Section 4: SCHOOL COLORS

Tangerine and Blue are the official school colors. Tangerine portrays the time of harvest characterized by thanksgiving and joy, while blue reflects heavenly authority, faithfulness and truth.

The school colors encourage the academic community to persevere in all endeavors with thanksgiving and joy. Capitalizing on good morals and positive values, the academic community never tires of doing good; for the hope of reaping what he has sowed will stimulate him even more to use his skills and talents to become even more productive. In the end, this will inspire others to follow the path he has taken.

Section 5: SCHOOL HYMN

(Lyrics: Rev. Rosendo Sagansay, Music: Patrick Matthew Pooten)

Lift thy banner high and lofty
O'er valleys, hills and plains
Wave it high to tell a story
Of a school that it proclaims

Cordillera College we love thy name
We will share your vision and dreams
And thy portals ne'er be forsaken
Till the world will know thy fame

You'll be proud of us as we take our place
Men and women of our race
And thy banner shall ne'er be folded
By the people thou hast made.

Onward then ye sons and daughters
And in one accord we sing
For her banner our lives we offer
To her ourselves we bring

In the land so blest with prosperity
Thy children loyal will be
In our hearts and minds we pledge thee
Cordillera College will stay

You'll be proud of us as we take our place
Men and women of our race
And thy banner shall ne'er be folded
By the people thou hast made.

Section 6: DIRECTORY OF OFFICES

CCDC derived the names of its buildings from local terms in Northern Luzon.

SALENG represents an aged pinewood, similar to that of an old oak tree. A pinewood becomes saleng as it ages, accumulating energy that is sufficient to ignite fire.

ARANG is a Maducayan term for granary. When rice is harvested, it is stored in the arang for it to be ready for pounding. Our school building is like the arang, where students are prepared and equipped, for them to be ready to overcome challenges that may come their way.

TUPAY-YA is a festival beat popular in Abra performed during social gatherings and ceremonies. The CCDC Gymnasium Building is the main venue for most of the social gatherings of the school.

AHBUNAN is an Ifugao term to mean a meeting place. Such is the function of the Student Center.

JMM BUILDING is named after James M. Malaya, the institution's founding President.

2.3 Re-Admission

As for those who were not enrolled for the previous enrollment or with broken enrollment, the student will file for a leave of absence (LOA) and sign an undertaking through the dean during the enrollment.

Section 3: ENROLLMENT

- 3.1 **Effects of Enrollment.** Enrollment is the formal act of the institution to admit a person who applies as a student. It is effected upon payment of the required fees and completion of the registration process by the applicant as prescribed by school rules and regulations, to qualify him to attend classes. Once complied with, the reciprocal relationship between the student and the institution – involving rights, duties and

responsibilities for both begins and is likewise terminated upon graduation, exclusion, expulsion, dropping and the like.

- 3.2 **Enrollment Period.** All students seeking admission, regardless of degree, shall enroll during the prescribed enrollment period. A fee, to be determined by the VP, will be charged for late enrollment or within two calendar weeks from the start of classes. No enrollment shall be allowed after a lapse of two weeks following the first day of classes, unless the enrollment period is officially extended by the President.

Any absence incurred by the student due to late enrollment shall be considered as unexcused.

- 3.3 **Terms of Enrollment.** Enrollment in any of the College courses of CCDC is understood to be for one semester or term.

- 3.4 **Cross Enrollment.** Students, regardless of degree, enrolled in other institutions of learning may be admitted to CCDC upon submission of a written permit from the Registrar of the school where they are principally enrolled. This permit shall state the subject/s and the total number of units they are authorized to cross-enroll at CCDC and other admission requirements as prescribed in this handbook.

Cross-enrollment period coincides with the enrollment period. Further, any student who cross enrolls at CCDC is bound to obey, in addition to that of the home school, CCDC rules and regulations.

- 3.5 **Cross Enrollment to other Institutions.** A CCDC student may

be allowed to cross-enroll in other schools if the subject/s he/she needs for graduation are not offered in the institution during a particular term, provided he/she secures approval from his respective Dean as per department policies, and a permit to cross-enroll from the Registrar. In such a case, the school where the student cross enrolls becomes an extension of CCDC, and the student is bound to obey the rules of both the CCDC and the institution where he is to cross enroll. A student is only allowed a maximum of six (6) units but not exceeding the number of units the student is enrolled in at CCDC. Further, in no way should the total number of units enrolled in both schools exceed the number of units prescribed in the curriculum.

It is the responsibility of the student who cross-enrolls in another school, to forward the official certificate of grades indicating the incurred grade in the cross-enrolled subject to the CCDC Registrar seven (7) days after the last day of CCDC's final exam for non- graduating students; three (3) days after the last day of CCDC's final exam for graduating students. Failure to submit on time will nullify the credit units of the subject/s cross-enrolled in the other school.

Section 4: WITHDRAWAL, CHANGE OF MATRICULATION

- 4.1. **Withdrawal.** A student who, after having paid for tuition and other college fees or the required down payment, wishes to withdraw all his academic load and obtain a refund, must do so before the start of classes or within two weeks counted from the first day of classes during the regular semester and within six days after the first day of classes during the short term.
- 4.2. **Procedures for Withdrawal.** The student is to submit a letter indicating the intention and reason/s along with the student's copy of the Certificate of Registration to the Dean and interview the student, and possibly consult with parents. If approved by the Dean as indicated by a signature on the student's letter of intention, the student submits it to the Registrar, then to the Student Development Office for an exit interview. Once approved by the VP Finance and President, the student surrenders to the Registrar's Office all documents released (e.g. ID, certificate of registration, student handbook, etc.) The Accounting Office then prepares the corresponding refund, if any, based on rules and regulations.

The student should ensure that the name is canceled from the rolls in the database as if the student never enrolled.

- 4.3. **Change of Matriculation.** A student, regardless of degree, who wishes to remove/and/or change/add any subject/s may do so within the late enrollment period or within two calendar weeks from the first day of classes.

Valid reasons for change of matriculation will be conflict of schedule, overload and newly open subjects for underloads or justifiable reasons as approved by the dean.

In the case of dissolved subjects, students affected still undergo the Change of Matriculation but are free of any fees, forms are acquired from the specified lane in the Registrar's Office.

4.4. Procedure for Change of Matriculation.

1. Students who wish to drop and/or change/add enrolled subjects, as proven by their Certificate of Registration (Student's Copy) are to pay required fee at the Cashier's Office for every form. A valid Change of Matriculation Form is when the previous certificate of registration has been cancelled and a new certificate of registration has been issued by the Registrar's Office reflecting the changes made. The new certificate is also marked as officially enrolled.
2. Additional and detailed procedures are posted in strategic places during the Change of Matriculation period.

4.5 The Registrar's copy of the certificate of registration reflects subjects officially enrolled. Any changes (e.g. changes in subjects, schedule, among others), without undergoing the required procedures during the designated period shall be given a failing grade therein and required to pay in full the total assessment for the subject/s dropped/ changed, as the case may be.

Section 5: CLASS HOURS – add provision for blended? - % registrar

- 5.1 Generally, one unit of credit is equivalent to one class hour or three hours of laboratory per week. A 3-unit lecture is required to meet for three hours in one week.
- 5.2. Students and faculty are to attend classes on time. In all classes, regardless of the length of the class, when the faculty member is not around after 15 minutes following the school time, without any notification to students or the Dean, the faculty member is considered absent, hence, class president or any student shall report the case to the Dean's Office, who shall take immediate action and give students an activity. However, if the teacher notifies and advises the students to wait, then they will have to wait for the teacher.
- 5.3. Make-up classes are conducted through the initiative of the faculty member, however, such is scheduled only when at least 90% of the class members are available. It is the Dean who approves these make-up classes.
- 5.4. Students can also complain to their respective Deans any faculty member who frequently dismisses early or comes to class late to their disadvantage for this is considered under time.
- 5.5. Regular classes are conducted even during preliminary assessment but not during major examinations (first grading, midterms, finals).

Section 6: ACADEMIC LOAD

- 6.1. According to the Manual of Regulations for Private Schools, no student may be permitted to carry a load more than the prescribed units under the school's approved curricular offerings. Graduating students may be allowed a maximum overload of six units beyond the prescribed units in the appropriate curriculum.
- 6.2. Academic load of students who have failing marks in the previous semester are subject to deloading as provided by Section 13: Academic Retention of this Handbook. Generally, regular load is based on the curriculum.
- 6.3. Students should take all subjects as prescribed and sequentially arranged in their respective curriculum.
- 6.4. For DepEd employees enrolling in the Graduate School, a maximum of 9 units shall be allowed for the student in a regular semester and 6 units during short term. However, for regular students, a maximum of 12 units shall be allowed in a regular semester and during short term.

Section 7: GUIDELINES ON STUDENT ATTENDANCE

- 7.1 CHED requires that every school should keep records on attendance of all students so that the data on enrollment, attendance, tardiness, transfer and separation from schools can be easily and speedily checked. The standards of attendance should be maintained to prevent giving of school credits to students who do not meet the minimum attendance requirements. The checking of attendance is the responsibility of

the faculty from the start of classes to the last day, inclusive of scheduled exams. The CCDC Portal provides means to check attendance, or faculty may opt to check attendance manually.

- 7.2 Students, regardless of degree, are required to attend their classes from the first day of school. In the case of late enrollees, absences incurred thereof are considered unexcused.
- 7.3 Absences may be classified as excused or unexcused. It is the Student Development Office who will determine whether the reason for the absence is excused or not. For excused absences, a student may make-up for any work missed. However, for unexcused absences, any missed class work and activity will be given a failing mark.

Absences during the major examinations are considered serious. Excused students will be allowed to take the removal examination.

- 7.4 Faculty members who check attendance manually are required to refer students to the Student Development Office, by filling up the Referral Form on Student Absences, who has incurred the alarming number of absences:

NUMBER OF ABSENCES TO CAUSE DROPPING			
Class Schedule	WARNING: Counseling/Inform Parent	Call Parent	Totally Dropped (Final grade: DR)
MW/TTh (1.5hrs)	2 consecutive absences or 3 non-consecutive absences	5 absences	8 absences
Sat (3hrs)	1 absence	2 absences	4 absences
Monday-Friday	3 consecutive absences or 5 non-consecutive absences or 10 non-consecutive absences	12 absences	19 absences

* All succeeding absences shall be referred immediately to the Student Development Office

In the case of the **College of Law and Graduate School**, faculty members are required to refer the students to the Dean by submitting referral slips, who have incurred the following absences, excused or unexcused:

NUMBER OF ABSENCES TO CAUSE DROPPING			
Class Schedule	FIRST WARNING: (Students are warned of Absences)	LAST WARNING	TOTALLY DROPPED (final grade: DR)
<u>3 units subject</u> MWF (1 hour per class hour)	3 consecutive absences or 5 non-consecutive absences	8 absences	11 absences
<u>3 units subject</u> Sat (3hrs per class hour)	1 absence	2 absences	4 absences
<u>3 units subject</u> <u>w/ 1 unit lab.</u> Monday-Friday (1 hr. per class hour)	3 consecutive absences or 5 non-consecutive absences or 10 non-consecutive absences	14 absences	19 absences

- 7.5 A student who will be absent from class to officially represent the school in competitions, symposiums and other similar activities as manifested by the approved activity permit which indicates the name of the student as official delegate, shall not be considered absent but rather, on OFFICIAL BUSINESS. An excuse slip issued by the Student Services, through the Student Development Office shall be given to the teacher by the student before or immediately after the activity and will serve as notice to the teacher, and the student shall be given make-up activities for missed work.

- 7.6 A student who has incurred absences of 20% or more of the total number of class hours (excused and unexcused) in any subject during the regular or short term shall be dropped automatically from the rolls and be given failing grade.

In instances where the student appeals in writing for re- admission due to circumstances beyond the control of the student, the following may be considered for exemptions:

- a. Death of an immediate family member or legal guardian, or adoptive parent/guardian- 3 days maximum in a semester
- b. Serious calamities or disasters (e.g. isolation of residence due to landslide) where the student is prevented from reporting to his classes- 3 days maximum
- c. Hospital confinement of student provided it is supported by a medical abstract - number of days in the hospital plus 2 days maximum for rest.
- d. Other analogous cases, as may be determined by the Student Development Office (e.g. Required attendance to court hearings or other agencies, therapy, counseling, etc.) – 3 days maximum in a semester.

- 7.7 When a student has incurred the maximum number of absences, the student shall be dropped from the class. The faculty shall accomplish a referral form for dropping and personally submit the same to the Student Development Office. The Student Development Office will notify the parent/guardian of the student concerned. The student shall only be allowed to re-enter his class upon presenting his re-admission slip duly signed by the Student

Development Office. It is the responsibility of the faculty to inform the students whose name has been dropped at the Student Development Office. In case referral for dropping slip had not

Been acted upon or the student failed to report to the Student Development Office for two weeks from the day the student has been dropped, or on the first day on the final examination, whichever comes earlier, the Student Development Office shall inform the Dean and the Instructor immediately and the student shall be given a final grade of DROPPED in the particular subject.

In the case of the College of Law and Graduate School, the Dean or the program coordinator is responsible for issuing warnings to the concerned student.

- 7.8 A tertiary student may be re-admitted on the first and second dropping for valid reasons as may be determined by the Student Development Office. In case of re-admission, the Student Development Office shall inform the faculty concerned and shall issue a re-admission slip to the student who will submit the same to the teacher concerned.

Procedure for Dropping of Students

Absences	Action Points
2 consecutive/ 3 non- consecutive	Teacher drops the student by personally submitting the referral slip to the Guidance Office. Teacher also informs the student of his dropped status and advises student to report to the Guidance Office.
	Guidance Office conducts conference with the student. Depending on the result of the conference, the Guidance Office may confirm the dropped status or gives the student his

	first written warning.
	Guidance Office issues a re-admission slip to
	the student who will present the same to the teacher. The student shall be admitted.
5 absences	Teacher personally drops the student for the second time at the Guidance Office by accomplishing the referral for the dropping form. Teacher informs the student of the dropped status and advises students to report to the Guidance Office.
	The Guidance Office conducts conferences with the student, including the parent or guardian. If given another chance or last warning, the Guidance Office informs the teacher and a re-admission slip shall be issued to the student who will submit the same to the teacher.
8/more than 8 absences	Student is totally dropped and is considered an academic delinquent. The teacher personally informs the Guidance Office. Conference between the teacher and the Guidance Officer shall be conducted to validate the incurred absences. Once validated, the guidance office informs the student and the parent/guardian of the student. In this case, DR is reflected on the appropriate grading period.

- 7.9 Students, regardless of degree, are marked late if they arrive five (5) minutes after the start of class. Students who go out after the roll call and do not return, or who only return at the end of the period are considered absent. Three tardy marks are equivalent to

one hour of absence.

- 7.10 During class hours, a student can be excused for a few minutes **only** if an official call slip issued by his respective Dean or any school official is presented to the faculty member.
- 7.11 To maintain the integrity of the aforementioned class hours, students are not to be sent out on errands by the faculty member, especially when this would mean missing some essential points during the lecture or class hour. Further, students should avoid excusing themselves to leave the classroom during class hours.
- 7.12 Students can be dropped for academic delinquency. Academic delinquency shall mean the inability of the student to meet the required number of attendance as per CHED policy of at least 80% of the total number of hours per subject per term.

- 12.3 Computation of Grades. In general grades for the College level follows the ff. ratio per grading period:

Class standing (assignments, seat works, quizzes, recitations and other similar activities) – 60%

Exams (minor and major exams) – 40%

To compute the grades per grades, the ratio is two-thirds of the current grading period grade and one-third of the previous grading period is taken. Grade computation is part of the syllabus and should be clearly explained by the faculty at the beginning of every term.

The Deans, however, can increase the cut-off grade in their respective Colleges, when deemed necessary, provided that the students are properly informed at the start of the semester.

For College of Law:

The general cut-off grade for the College of Law is at least 60% for midterms, class standing and final exams.

For the Graduate School:

The general cut-off grade is 60% for both the midterm and final grading.

- 12.4 Final Grades. Final grades are reflected in the Grading Sheet submitted by the Faculty Member. Final Grades from 75 and above are considered passing, while all grades below 75 will be reflected as 70, which is failing.

In cases when the faculty places grades such as 71, 72, 73 or

74 in the Final Grading Sheets, the Registrar is authorized to convert them to 70.

The final grade or rating given to a student should be based solely on his scholastic performance. Any adjustment, addition or diminution to the final grade for co-curricular activities, attendance or misconduct shall not be allowed.

For College of Law:

The final grade shall be computed by assigning the values:

examination. Completion of NG Final Grades should be within the completion period, which is 30 days from the last day of final examinations, and is only applicable to non-graduating students. This is also true for the College of Law. **Graduating students** have to complete/comply fully with all requirements three days from the last day of scheduled final examinations for graduating students.

As such students are advised to enroll in the subject again. Re-enrollment of subjects is not free and shall be charged accordingly.

A student has to repeat the subject where he obtained such a mark.

DR (Dropped). This mark is given to a student who has exceeded the number of allowable absences as indicated in Article 4, section 7 or has not claimed his/her class card from the Student Development Office. In computing from the General Weighted Average (GWA) this is equivalent to 70.

WHAT TO DO IN CASE OF FIRE

BEFORE	DURING	AFTER
<p>The following are a few safety tips to help keep you safe from a fire break out.</p>	<p>Knowing what to do before a fire occurs can save your life. Below are a few tips that will help you escape if you are in a building during a fire:</p>	<p>When a fire strikes in, your life will suddenly be turned around. Often, the hardest part is to where to begin.</p>
<p>Remember - "Practice Makes Perfect!" Practice your fire escape plan at least twice a year. Have everyone memorize the emergency phone number of the fire department.</p> <p>1. Create a Fire Escape Plan: (same as Earthquake Evacuation Plan)</p> <p>✓ Fire can grow</p>	<p>1. If a fire occurs and the room door is CLOSED:</p> <ul style="list-style-type: none"> ✓ Keep low. ✓ Crawl to the door. ✓ Feel the door. Use the palm of your hand to feel the lower, middle and upper parts of the door to be sure it is not hot. ✓ Brace yourself against the door and open it very slowly. Toxic gases or fire may be on the other side. 	<p>Cautions:</p> <ul style="list-style-type: none"> ✓ Do not enter the damaged site. Fires can rekindle from hidden, smoldering remains. ✓ Normally, the fire department will see that utilities (water, electricity and natural gas) are either safe to use or are disconnected

<p>and spread throughout your school quickly. It is important that you be prepared to react as soon as the emergency alarm sounds.</p>	<p><u>Caution:</u></p> <p>Some doors may not get hot or may feel only warm due to their construction, so be very careful when opening any door when there is a fire.</p> <p>✓ If smoke or hot gases rush into the room when you</p>	<p>before they leave the site. Do not attempt to turn on utilities yourself.</p> <p>✓ Be watchful for structural damage caused by the fire.</p>
<p>✓ Familiarize yourself with the exit plans of the building.</p> <p>✓ Make sure that you understand the escape plan.</p> <p>✓ Agree on a meeting place outside where everyone can meet after they've escaped.</p>	<p>open the door, quickly close it and seek another method of escape.</p> <p>✓ If it is safe to leave the room, get below the smoke and get out by the quickest and safest route.</p> <p>✓ Once you are out of the burning building, stay out! Do not go back into the building.</p>	<p>Roofs and floors may be damaged and subject to collapse.</p> <p>✓ Food, beverages and medicine exposed to heat, smoke, and water should not be consumed.</p>

<p>2. Fire Extinguishers :</p> <p>✓ If you know how, and when,</p>	<p>✓ If it is safe to leave, cover your nose and mouth with a cloth (moist if possible). Get low and get out quickly.</p>	
<p>to use the portable fire extinguishers , you can save lives and property</p>	<p>✓ If there is smoke or fire, immediately close the door and use an alternate escape route.</p> <p>✓ STOP, DROP and ROLL:</p>	<p>to use the portable fire extinguishers, you can save lives and property</p>
	<p>where you are. Running will only make the fire worse since fire feeds on oxygen</p>	
	<p>DROP...</p> <p>to your knees and then to the ground.</p> <p>ROLL...</p> <p>over and over or from side to side, covering your eyes, nose, and mouth with your</p>	

	<p>hands, if possible, roll until you're sure the fire is out. This will help smother the flames.</p> <p>Once the flames are out, cool the burned skin with water for 10 to 15 minutes and get medical attention.</p>
